

**Proposal: Redistricting of county Meath constituencies.**

Proposer: Cormac Corr [REDACTED]

A chara,

I write to include the following submission for consideration by the Electoral Commission. I propose that the constituencies of Meath East and Meath West be replaced with the constituencies of North Meath and South Meath, with coastal Meath remaining in the Louth constituency. The constituency I have proposed in North Meath would have 4 seats with a ratio of roughly 1 TD for every 26,000 people, the proposed constituency in South Meath would have roughly the same ratio and three seats.

I feel that these two constituencies better serve the county of Meath and its people, in reality the county has been divided geographically into North and South by the River Boyne but in addition to this the county is also divided culturally into North and South. This proposal would also see north Westmeath reincorporated with the rest of Westmeath, ending the unnecessary division of a county for voting purposes.

I strongly believe that the approval of this submission would be the best possible scenario for the people of Meath North and South.

Attached you will find two separate tables showing each electoral division which I have included in these two proposed constituencies, additionally you will also find a map of the two proposed constituencies.

All data featured in this submission was gathered from the preliminary results of the 2022 census.

Kind Regards,

Cormac Corr

## Proposal: Redistricting of county Meath constituencies.

Proposer: Cormac Corr, [REDACTED]

North Meath (4 seats)				
Duleek	Rathkenny	Ardraccan	Crosskeys	Castlekeeran
